

Water Team

This is the perfect first job! We are looking for people that enjoy spending their days outside, and are eager to learn and become part of a fun, hardworking team. Watering may be one of the simplest jobs at the Nursery, but it is also one of the most important.

Responsibilities/Job Requirements:

- Must be 16 years old to start.
- Providing water to thousands of trees, shrubs, and flowers.
- Reliability (punctuality, focus, etc.)
- Must be a good team member willing to listen and communicate with co-workers.
- Must be willing to spend most of the day on your feet, and perform some light labor (moving hoses, etc.)

We expect all members of our team to take great pride in hard work, and be adaptable to an environment where duties and priorities often change. Opportunities to transition into other positions within the Nursery will be available to those that prove to be a good fit.

Pay depends on experience.
